Thanks, but I haven't gotten a response from the IO as to whether someone is needed from EFED. It may be good to see who's available, however, in the event someone is needed. For that matter, I'm still unsure as to whether a meeting will actually occur tomorrow. Stay tuned. . .

BTW, my general this afternoon was postponed due to dicamba, so I didn't get the opportunity to update Marietta. However, I'm providing my agenda for her perusal, which includes aldicarb updates.

It looks like Amy is in the office, now, but compressed tomorrow. We could reach out today to her to see if there would be someone from her team available for a call tomorrow?

Yes - I'm available tomorrow. Debra is also available, if also needed; she's been coordinating the Aldicarb Team discussions. Are you needing someone from EFED to address water concerns?

Tomorrow or Monday would be preferable. I'll leave it y'all to decide who all needs to be included.

I am available tomorrow, but like Rick, would need someone from the team to participate also for the technical details.

Rick, who should be on the invite? We can also just schedule a phone call when it works for everyone-- perhaps Monday or Tuesday?

I'm happy to participate, but will need some technical experts to be part of the discussion.
